Weapons of choice

Perf

KDAB hotspot

Focus Areas

- Everybody has a different 20% they use
- Everybody has a different combination of features
- Some people like to (ab)use Libreoffice :-)
- Which leads to performance issues

Some issues (mostly) solved

- tdf#160399 Print preview with row styles and large column widths (5 commits)
- cool#8570 lots of little calc speedups
- tdf#158556 docx files with tons of headers and footers (5 commits)
- Tdf#158773 PPTX with tons of master slides (16 commits)
- Some problems need to be eaten in small chunks :-)
